

**Facilities Checklist**

Tools	Phillips screwdriver 6mm pneumatic hose <u>Low Temp Thermal Grease</u>
Power	At least: 110 volts (USA) 220-240 volts (International)
Purge	-100F dew point purge air, <b>Or</b> Dry nitrogen 99.99% Pressure: 0.1 (BAR) with Adapter Plate 1.0 (BAR) with Boom Stand/ Pneumatic
Electrical	50/60Hz, Single Phase, 10A Max.
Environmental	40-95 degrees F (5 -35 degrees C) ambient and relative humidity range of 20% to 95% RH
Thermal Load	FlexTC system produces a thermal load of approximately 300watt (1000 BTU/hr)
Physical Dimensions	W 320 (12.5") Width x 420 (16.5") Length x 220 (8.5") Height

**Table 1-1 - FlexTC Shelf Clearance Area**

Length	Width	Height
30mm (1.2")	20mm (0.8") on both sides	20mm (0.8")
<ul style="list-style-type: none"> <li>FlexTC systems are Tri Stack.</li> </ul>
